Creative, Innovative, Problem Solving, Adaptability, Analytical Skills

📁 PROJECTS

Sale&Rent - Property Listing Platform 🔗

Sale&Rent is a MERN stack web application designed to facilitate property listing for both sale and rent. Users can explore property details, contact sellers, and manage their property listings.

Technologies Used:

-> HTML, CSS, JavaScript, React.js, Express, Node.js, MongoDB

Key Features:

- **Effortless Property Listing:**
Empowers users to list properties for rent on Sale&Rent.
- **Convenient Sales Platform:**
Provides a user-friendly avenue for listing and marketing properties for sale.
- **Direct Communication Facilitation:**
Enables direct communication between users and property sellers.
- **Comprehensive Property View:**
Offers users a detailed perspective of property details.
- **Admin Management Authority:**
Admins can efficiently update and edit property listings.
- **Integrity Maintenance:**
Admins can uphold platform integrity by deleting outdated or irrelevant property listings.

EdTech-Education_website 🔗

Ed-Tech-Education is an online learning and teaching marketplace with over 10 courses. Learn programming, marketing, data science and more.

Technologies Used:

-> HTML, CSS, JavaScript, React.js

Key Features:

- **User-Friendly Interface:** Designed an intuitive and user-friendly interface to ensure easy navigation for students of all ages and backgrounds.
- **Personalized Learning:** Implemented algorithms to deliver personalized learning recommendations, catering to individual student needs and preferences.
- **Feedback Mechanisms:** Set up mechanisms for students and instructors to provide feedback and suggestions, leading to ongoing enhancements.
